

Our team camp serves as a competitive venue for teams at the Club, Varsity and Jr. Varsity level. It promotes the development of individual and team skills through simulated college practices. During the day, each team will take part in two practice sessions with a designated college coach. Each session will be similar to a typical collegiate practice, focusing on specific skills. The day will commence with full field competitive games under the lights in front of college coaches!

For this camp teams register as a team and must include an adult representative (coach, parent). This representative will be compensated for their efforts, by the camp, to serve as a contact person, as well as chaperone the players in the dorms. Team chaperones will also be able to accompany their group during team sessions to learn new drills and techniques from college coaches.

To register for the camp the team must hand in registration forms as a group, provide a complete roster, and hand in all deposits. Payment can be submitted in three ways:

- Payment as a team in full by one check
- Payment individually by check
- Payment in full individually by credit card through [http://www.active.com/event\\_detail.cfm?event\\_id=1522675](http://www.active.com/event_detail.cfm?event_id=1522675)

The team's representative will serve as a liaison between the camp directors and the participants in regards to the fulfillment of waivers, payment, etc. The representative and campers will reside in air-conditioned dorms on the Cook Campus of Rutgers University. Healthy meals will be provided by the dining hall offering each camper a variety of options.
